

Property Strategy and Valuation (Valuer) Graduate + Summer Internship

Team Turley & Co is seeking a new colleague to join our well-experienced and busy property professionals' team. Our increasingly strong workflows create an excellent career opportunity for an in studies or graduate property professional.

Our training programmes deliver excellent personal and career leverage. Mentoring is by very experienced property practitioners working on a variety of interesting property projects in Hawke's Bay and NZ-wide for prime clients. Our team is close-knit and workplace positive – we love property and our profession.

You would be business integrated from day one and widely deployed, garnering more property experience and business operations insights than usual for bigger firms and typical graduate training.

This cross-disciplines opportunity is not commonly offered. Your land economy consultancy and valuation qualifications opportunity would be: Registered Valuer, Registered Property Consultant, and public land actions LINZ Accredited – leading to superior property career positioning and excellent remuneration.

We propose a paid summer internship and a 2021 permanent graduate position. The positions would suit a strongly motivated property degree studies person and ideally a 2020-21 property degree graduate. We will most likely expand our team further in 2021.

If you are already living in NZ and could join us by late 2020 or early 2021, please provide an expression of interest and your resume to pat@turley.co.nz

All communications will be treated as strictly confidential. We will reply if you meet the property studies and NZ resident prerequisites.

Applications will close on 9 October.
